

**POMPE ACQUA
WATER PUMPS**

CATALOGO 2009 CATALOGUE

La crisi petrolifera del periodo '73-'76 aveva sconvolto il quadro economico del Paese; la dipendenza dell'economia Italiana dagli idrocarburi aveva rivelato tutto il suo costo e la sua pericolosità. A seguito di questa prima crisi petrolifera tutti i maggiori paesi industrializzati avviarono politiche di diversificazione delle fonti energetiche, per ridurre la dipendenza dall'estero; l'Italia che è il Paese con la massima dipendenza tra tutti quelli industrializzati, vara una serie di piani energetici, che prevedono ambiziosi programmi nucleari. Ma tutto resta solo sulla carta.

Nel marzo del 1979, con l'adesione dell'Italia al Sistema monetario europeo (Sme), viene posto il primo elemento embrionale per una nuova filosofia di governo dell'economia. In quell'anno il tasso d'inflazione in Italia è molto più elevato di quello degli altri paesi europei.

Il 10 Novembre 1979 a Brescia nasce IDROMECC. Come si evince sono anni difficili, ruggenti che hanno lasciato il segno nel carattere dell'azienda, che fu da subito chiamata ad affrontare una concorrenza qualificata e ben radicata nel mercato: la forza di svilupparsi e crescere in un ambiente duro e difficile, rimanendo contemporaneamente giovane e dinamica. Idromec è oggi un'azienda dotata di macchinari a controllo numerico modernissimi. Uno staff dirigenziale molto preparato e motivato, supportato da personale altamente qualificato in tutti i settori nevralgici dell'azienda, assicura un'elevata affidabilità di prodotto e un'estrema flessibilità di servizio per i clienti più esigenti in ogni parte del mondo. Idromec è oggi fornitore omologato per il ricambio originale di importanti case automobilistiche e dei principali marchi del ricambio automobilistico mondiale.

IDROMECC was set up in Brescia on November 10, 1979. This was following the difficult years between 1973 and 1976, when the oil crisis upset the economic scenario of the country. Italy's dependence on fossil fuels from foreign imports was showing, and the danger with inflating costs impacted greatly towards industry. It prompted a series of internal policies concerning energy plans including an ambitious project for a nuclear program. These plans never materialised. Then in March 1979 Italy joined the European Monetary System (EMS). This was the first outline for a new economic management philosophy; in that year Italy's inflation rate soared and was much higher than its fellow European countries. For Idromec as a new company just started, it created a character that was developed from immediately facing well qualified competition

deeply rooted in the market place and a drive to continually develop itself and grow despite the difficult economic climate.

Today this drive continues with a young and dynamic company with modern numerical control machines, a well prepared and motivated managerial team, supported by a highly qualified, experience staff in all strategic areas of the company. All working together for a common goal which is to produce and high quality, extremely reliable product, while ensuring flexible service requirements to meet the needs of the most important and demanding customers all over the world.

With this attitude Idromec are now an approved supplier for original spare parts for major car manufacturers and supply the main trademark names of the worldwide motor spare parts.

Il catalogo IDM comprende una selezione di oltre 720 riferimenti, scelti per coprire un'ampia gamma d'applicazioni e modelli di autoveicoli.

È stato pensato privilegiando una veste grafica razionale e di facile comprensione.

E' la sintesi di un'intera azienda, la parte visibile di alcuni valori che riteniamo fondamentali: qualità totale e certificata ISO (dopo aver acquisito il 9001-2000 abbiamo avviato la certificazione TS 16949:2002), controllo continuo dell'intera catena produttiva, servizio a 360 gradi, investimenti progressivi, prove, analisi e test per un'assoluta sicurezza.

Naturalmente senza trascurare un equo rapporto tra le caratteristiche finali ed il prezzo.

Sappiamo che il settore *automotive* è uno dei più

esigenti e complessi. Per questo offriamo una collaborazione trasversale, supportando i nostri clienti in tutte le richieste e in tutte le fasi del processo. Fin dalla fondazione contiamo su rapporti di partnership a lungo termine.

La nostra affidabilità, solidità e flessibilità sono apprezzate e riconosciute da gruppi internazionali e prestigiosi, anche attraverso omologazioni e severi, frequenti audit che, ogni volta, ci aiutano a portare più avanti le nostre ambizioni.

I nostri prodotti rappresentano emblematicamente anche il nuovo corso di Idromec. Sono parte fondamentale del motore, della sua performance e durata. Hanno un ruolo chiave per la sua sicurezza, per questo applichiamo il processo interno d'incessante miglioramento, migliorando sempre la qualità e la sicurezza.

IDM catalogue includes a collection of 720 references, selected to cover a wide range of applications and vehicle models.

It has been arranged giving emphasis to a rational and immediate graphic representation.

It represents the synthesis of an entire company, the visible side of some values that are essential to us: total quality, ISO certifications (after obtaining the 9001-2000 we are initializing the TS 16949:2002 certification) constant control over the whole productive chain, 360 degree service, progressive investments, trials, analysis and tests for absolute safety.

Obviously, without ignoring a final features/price fair ratio.

We realize that the automotive sector is one of the most demanding and variegated industries. There-

fore, we offer a transversal co-operation supporting our customers in all their requests and along all steps of the process.

In fact, since the time of the company establishment we have been relying on long-term partnerships.

International renowned groups appreciate and acknowledge our reliability, solidity, and flexibility also through homologations, or strict and frequent audits that every time allow us furthering our ambitions.

Our products emblematically represent Idromec new route as well.

They are an essential part of the engine, as well as of its performance and life. They play a crucial role in the engine safety, and Idromec applying the internal process of incessant improvement to the end result of our job, always supporting its quality and safety.

Il materiale utilizzato per realizzare la pompa è una resina termoindurente fenolica caricata con vetro, che presenta un eccellente equilibrio di proprietà meccaniche e termiche. Combina infatti un'elevata stabilità termica (oltre 200°C) con una resistenza a trazione di 100 MPa, un carico di rottura di 200 MPa ed una resistenza all'impatto (Charpy) di 14 kJ/m².

The material used for producing the pump is a glassfibre reinforced phenolic compound with an excellent balance of mechanical and thermal properties. It combines a high thermal stability (more than 200°C) with 100 MPa tensile stress at break, 200 MPa flexural stress at rupture, di 14 kJ/m² Charpy impact strenght.

E' un materiale appositamente studiato per questo tipo di applicazione, sviluppato da Vyncolit N.V. per il gruppo PSA nell'ambito di un progetto per la realizzazione di una pompa acqua quasi interamente in materiale termoindurente, poi installata sul motore EW della Peugeot 406.

This material has been developed by Vyncolit N.V. for the PSA Group on purpose of a project to realize an automotive water-pump made almost entirely in a thermoset material, then fitted on the EW engine of Peugeot 406.

Il cuscinetto è pre-inserito nello stampo, evitando ogni problematica collegata al piantaggio del cuscinetto nel corpo. Con l'utilizzo di questo materiale, l'efficienza della pompa acqua è stata significativamente migliorata grazie alle strette tolleranze e all'elevato grado di finitura superficiale che è possibile ottenere con le resine termoindurenti (evitando i problemi di cavitazione dell'Alluminio alle alte velocità di rotazione). Si noti che l'efficienza è mantenuta costante per tutta la vita della pompa, in mancanza di corrosione ed ossidazione della superficie.

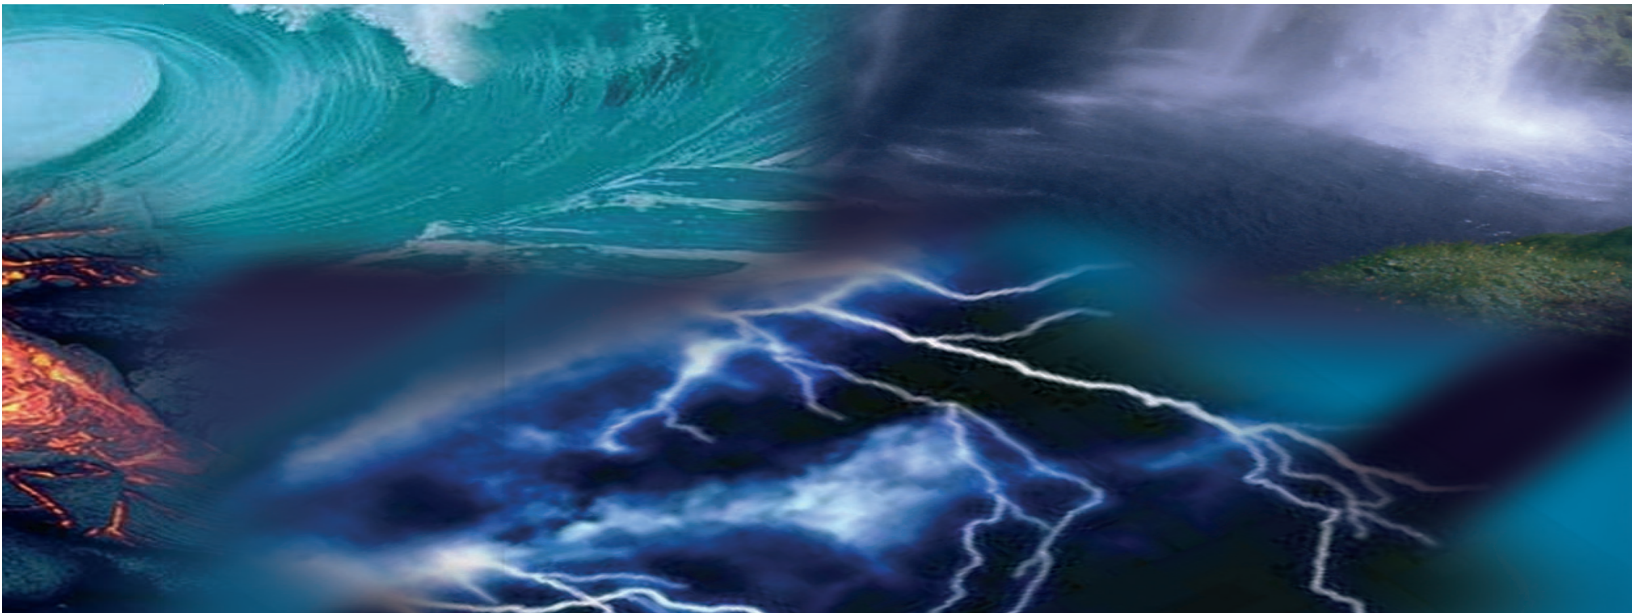

The bearing is overmoulded, avoiding any problem related to the fitting of the bearing in the body. Through the use of this material, the efficiency of the water pump has been significantly improved due to the tight tolerances and high degree of surface finish achievable by moulded thermoset materials (to avoid Aluminium cavitations problems at high motor speed). Note that the efficiency is maintained over the long term due to the lack of corrosion and surface conversion.

Idromec S.r.l. è orgogliosa di essere la prima azienda a realizzare una pompa acqua in plastica per il settore dell'aftermarket e dimostrare agli increduli che lo stampaggio del termoindurente sarà un'alta tecnologia del loro futuro e nostro presente.

Idromec S.r.l. is proud to be the first company to realize a plastic's water pump for the aftermarket trade; it demonstrates for incredulous people that thermoset moulding is a high technology of their future and our present.

WWW.IDROMECCOM

Le matériau utilisé pour réaliser la pompe est une résine thermodurcissable phénolique chargée avec du verre, qui présente un équilibre excellent de propriétés mécaniques et thermiques. Il associe en effet une stabilité thermique élevée (plus de 200°C) à une résistance à traction de 100 MPa, une charge de rupture de 200 MPa et une résistance à l'impact (Charpy) de 14 kJ/m².

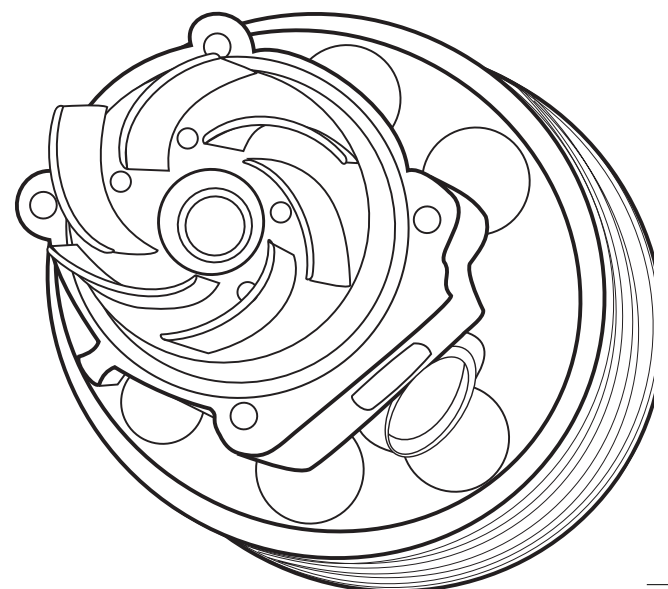

Il s'agit d'un matériau étudié exprès pour ce type d'application, développé par Vyncolit N.V. pour le groupe PSA dans le cadre d'un projet pour la réalisation d'une pompe à eau presque entièrement conçue en matériau thermodurcissable, puis installée sur le moteur EW de la Peugeot 406.?

Le roulement est pré-inséré dans le moule, ce qui évite tout problème lié à l'emmanchement du roulement dans le corps. Avec l'utilisation de ce matériau, l'efficacité de la pompe à eau s'est améliorée de façon significative, grâce aux étroites tolérances et au degré élevé de finition superficielle que l'on peut obtenir avec les résines thermodurcissables (évitant ainsi les problèmes de cavitation de l'aluminium aux vitesses de rotation élevées). On remarque que l'efficacité reste constante pendant toute la durée de vie de la pompe, en l'absence de corrosion et d'oxydation de la surface.

Idromec S.r.l. est fière d'être la première entreprise à réaliser une pompe à eau en plastique pour le secteur du marché des accessoires automobiles et démontre aux incroyables que le moulage du thermodurcisseur sera une technologie de pointe de leur futur, ainsi que de notre présent.

The logo consists of the word "CAR" in a bold, white, sans-serif font, centered within a red oval. The oval has a double-line border, with the inner line being white and the outer line being red. The background of the entire page is a repeating pattern of light gray, semi-transparent car engine components, specifically cylinder heads, arranged in a grid-like fashion.

CAR

CONDIZIONI DI VENDITA

ORDINI

Tutti gli ordini si intendono ricevuti "salvo approvazione". I prezzi del nostro listino si intendono per merce resa franco nostra fabbrica. L'imballo non è compreso nei prezzi di listino ed è fatturato al costo.

SPEDIZIONI

La merce viaggia a rischio e pericolo del committente, anche se spedita, per accordi tra le parti, franco destino. Nulla può esserci imputato per eventuali ritardi delle spedizioni dopo la consegna della merce al vettore. In mancanza di precisi accordi, le spedizioni saranno effettuate con il mezzo da noi ritenuto più conveniente.

CONSEGNA

I ritardi o le mancate consegne dei materiali eventualmente non disponibili nei nostri magazzini, non daranno diritto alla risoluzione del contratto e non potranno costituire in nessun caso titolo di risarcimento di danni.

SOSPENSIONE ORDINI

Il mancato pagamento, anche parziale, di fatture scadute ci dà la facoltà di annullare qualsiasi contratto in corso, senza pregiudizio di ogni nostra azione e diritto, e senza obbligo di rifusione di danni.

RECLAMI

La denuncia dei difetti, manomissioni, avarizie, vizi dovrà pervenirci entro il termine massimo di otto giorni dal ricevimento della merce, trascorso il quale il cliente decade da ogni diritto di contestazione.

GARANZIA

La garanzia per vizi è limitata ai soli difetti dei prodotti, conseguenti a difetti di materiale o di costruzione, e non si applica nel caso in cui il compratore non dimostri di aver effettuato un corretto uso e conservazione dei prodotti. La garanzia si limita a nostra scelta, alla sola sostituzione o riparazione dei prodotti da noi riconosciuti difettosi. La garanzia qui pattuita è assorbente delle garanzie legali per vizi e difformità ed esclude ogni possibile responsabilità del venditore, in ogni modo originata dai prodotti forniti; in particolare il compratore non potrà avanzare altre richieste di risarcimento di danno, di riduzione del prezzo o di risoluzione del contratto. Decorsa la durata della garanzia nessuna pretesa potrà essere fatta valere nei confronti del venditore.

RESI DI MERCE

I ritorni di merce devono essere autorizzati e in ogni caso in porto franco.

PAGAMENTI

I pagamenti devono essere eseguiti nei termini contrattuali. Eventuali ritardi ci danno diritto a addebitare gli interessi in ragione del tasso ufficiale di sconto aumentato di cinque punti. Le condizioni suddette si intendono accettate col solo fatto del ritiro del materiale e della relativa fattura.

FORO COMPETENTE

Per ogni controversia è esclusivamente competente il foro di Brescia, questi avrà tuttavia la facoltà di agire presso il foro dell'acquirente.

I riferimenti originali elencati nel presente catalogo sono solo a titolo di identificazione.

I nostri articoli NON SONO ORIGINALI ma perfettamente intercambiabili

SALES TERMS AND CONDITIONS

ORDERS

All orders are intended received "subject to approval". Our prices apply to goods delivered ex-works. Packing is not included in prices and it is invoiced at cost price.

FORWARDING

Goods are carried at customer's risk and peril, even if sent carriage paid by agreement between the parties. We cannot be held responsible for possible delays in deliveries once the goods have been consigned to the carrier. In the absence of any precise agreement, goods will be sent by the means of transport we consider most suitable.

DELIVERY

Delays in delivery or failure to deliver goods which might not be available in stock, shall not lead to cancellation of the contract, nor they can constitute in any circumstance grounds of payment of damages.

ORDERS' SUSPENSION

Failure to pay overdue invoices, even in part, gives us the right to cancel any contract in course, without prejudice to us as regards any action or right, and without any obligation to pay compensation for damages.

COMPLAINTS

Notification of imperfections, pilferage, damage or defect must be received by us within a maximum of eight days from delivery of goods, after which time the customer loses any right to make a complain.

GUARANTEE

The guarantee against defects is limited to only defects of products deriving from imperfections in materials or in construction and does not apply in case where the customer cannot prove he has used and stored the products correctly. Under the guarantee we can choose either to replace or repair the products we admit to be faulty. The guarantee stipulated here covers all legal guarantees for defects or dissimilarity and excludes the vendor from any liability deriving in any way from the goods supplied; in particular the purchaser cannot claim compensation for damages, reduction in price or cancellation of the contract. After the expiry of the guarantee no claim can be made against the vendor.

RETURN OF GOODS

The return of goods must be authorized in every case made carriage free.

PAYMENTS

Payment must be effected within the terms of the contract. Any delay entitles us to charge interest at the official bank rate plus five points. The aforesaid conditions are considered as accepted on taking delivery of goods and the relative invoice.

COMPETENT COURT

The only competent Court for any dispute is that of the vendor, who, however, reserves the right to take legal action in the purchaser's Court.

The original references in this catalogue are purely for the purpose of identification.
Our products ARE NOT ORIGINAL but are perfectly interchangeable.
